EXPERIENCE

Frontend Engineer, Optimizely
NYC, NY — October 2014 - Present

I develop and maintain the Optimizely.com site. I write Javascript, SCSS, HTML5, and perform A/B tests.

Junior Full Stack Engineer, Canvas
NYC, NY — February 2014 - October 2014

I wrote a variety of code for the clients of Canvas. Technologies used: Rails and Ruby, SQL and MongoDB, Javascript and CSS.

Contributed to sites: styrk.com, nudeskincare.com, stribling.com

Instructional Laboratory Assistant, Rutgers University
Piscataway, NJ — September - December 2013

I tutored Computer Science students in subjects ranging from Data Structures to Discrete Mathematics.

Software Engineering Intern, Rackspace
San Francisco, CA — May - August 2013

I wrote client and server-side JavaScript to visualize Cloud server usage at Rackspace.

SKILLS

Languages: JavaScript, Ruby, Rails, Python
Other: unix, git, vim

EDUCATION

Rutgers University
Computer Science & Psychology — December 2013

GPA: 3.9
Distinctions: Henry Rutgers Award, Paul Robeson Scholar, Phi Beta Kappa Society

PROJECTS

Colors (JavaScript, Node)
A JavaScript webapp which allows you to poll classroom understanding in real time using web sockets.

Have I Downloaded This Before? (Coffeescript)
Chrome extension that prevents redundant downloads. Winner of HackRU Spring 2012. Visit: bit.ly/HIDTB
